I am attaching a photo of an Abloy lock which I am interested to buy. Would like to know the series number and its price (that for one item and in large quantities) to Malta (need to be installed on a door which can be opened from both sides - so double cylinder?).

Thanks and regards,
Nicholas Grech

Good Morning Nicholas

I can offer the CY002 double Finnish round cylinder although I think you have the CY032, the security rating is the same for both CY032 & CY002 double cylinders. I'm not sure what Platform you're on, so I will pass this to one of centre's who will be able to key this for you in-house and ship direct to Malta for you.

The Company who will contact you is HSL High Security Locking and the contact will be Bruce. Bruce Rutter on :- 01442 500120 or contact him on bruce@highsecuritylocking.com

I hope this helps

Nicholas,

We have been passed your enquiry from Abloy UK. Do you just need the replacement cylinders only, or to include the escutcheons also ?

Regards

Bruce Rutter

I would need it as a whole (including the escutcheons) but at the moment I am interested only in the price of one or in large quantities as I am still undecided.

Thanks and regards,

Nicholas Grech

Nicholas,

The replacement for these cylinders is now the CY002 as below. For a single unit these would be £93.18 less 20%, for a quantity of 25+ units we can increase the discount to 35%
