RESTRICTION OF FREEDOM OF COMMUNICATION

(RFC Ref. No. 01240024)

① - "4 weeks from today" would have expired on 1st Aug, not on the 12th. When asked for clarification, they

Patient: Nicholas Grech, ID 435076M
Ward: MW1, MCH
Address: not identified
Responsible Carer: not identified

issued me the 3rd in a row / the 7th restriction of ~~communication~~ freedom of communication order. So much in Malta Psychiatrists abuse of their victims at leisure, with this office being just their rubber stamp to whatever they dictate.

Your application to restrict the above patient's freedom of communication through except with family through nursing staff is approved.

② Communication with MHS customer care, Police, this Office, responsible carer or legal adviser are not affected by this restriction.

①
This restriction is valid for four weeks from today (expires on 12/08/2024) or until there is sufficient improvement in patient's condition, whichever is the earlier date.

Regards,

② abuses. So you can understand the pun intended when they said "communication with MHS customer care, Police, this office, ... legal advisor" (guess what lawyer would dare take it against his superior, the now, ex Magistrate of Carol Peralta, had already spent thousands of money in vain, ending defrauded, promised me many things, ending doing nothing) is not affected by this restriction.

Don't all these restriction of freedom of communication orders (rofofos) one after the other ring you a bell of something really abusive, really nasty? Had I dared write something untrue or abusive in my website, they would have since long massacred me with libel cases in court, would have accused me of incorrect use of electronic equipment, would have in the first place shut down my website already more than 6 years online, where one can find more than enough documents and evidence of my ordeal. By not taking action in the face of and when made aware of so many vile abuses and had time at your disposal to verify, you make yourself complicit, maybe one day would be held responsible if next time they take a step even worse than these abusive rofofos. Would you have remained silent had one from say China, North Korea, Iran or Putin's Russia suffered just one of the multitudes of abuses I feel to and am still suffering in this one complete hell of corrupt Malta, with my case being one of the worst cases of the so called political abuse of Psychiatry (so much of help from your side, my ordeal on Wikipedia has since been deleted). So much double standards and Western hypocrisy at their best.

US Ambassador to Malta

We, sisters/relatives of Nicholas Grech, urgently need an appointment with some official at the US Embassy in Malta, preferably with the Ambassador himself. Maybe some 30 minutes in all is what we need to just give you a glimpse of the many abuses our brother since long has been subjected to at Mount Carmel Hospital, one out of many of Malta's worst cases of political abuse of Psychiatry which is in part documented and corroborated with multitude of evidence our brother has tasked himself in doing on his website available 24x7. (<https://smashyouagainstthewall.com>) .

The culture of impunity with those involved and enjoyed by persons in high positions in Malta led us to no other option but to try to raise the matter face to face with you.

Despite all obstacles, our brother has just weeks ago on 2 occasions sought your help and of those of other embassies as outlined in the scanned pdf attached with the email below, but out of 10 embassies contacted including that of the US, no one bothered to look into the matter or do anything on such blatant abuses and violations of human rights!

As if to confirm further this total impunity even by Western standards, our brother is in the meantime abusively and vindictively on his 5th in a row, his 9th restriction of freedom of communication order, when rather than abusing and intimidating him this way, they would have instead for sure massacred him with libel cases in Court has he dared write something untrue on so many big heads or would have closed his website, now already more than 6 years online. For every day our brother is innocently locked and drugged up at leisure. The true criminals of persons of power end in high positions are running scot-free enjoying total impunity at the expense of their victims. As already mentioned by our brother, so much double standards and Western hypocrisy at their best.
