

Psychiatrist David Cassar, the most vicious avenger

A patient, D. M-A., most probably out of frustration for the miserable way Psychiatrist David Cassar has sedated and overdosed him with the poison of psychiatric pills and was ruining his health, ended telling him “Noqtlok” (I will kill you). So this sadist of Psychiatrist David Cassar, if I am correct together with that just as well sadist of Psychiatrist Chris Roule, ended contacting the Police and opening a court case against this poor patient, with some court sitting taking place in year 2024, to further destroy him psychologically and serve them as an excuse to further experiment and overdose him with pills.
