

Psychiatrist Joseph Spiteri

It happened that some time in year 2024, a patient who had spent time in prison ended in the same ward with me. Seeing me almost always with some book or a pen in hand, he confided with me whether it was good decision he chose to have them label him the mental to avoid spending almost the rest of his life in prison, seeing he otherwise still had many pending court cases let alone the legal fees they would all incur. I told him he will end probably prescribed some poison of injection every fortnight so that when he appears in front of that typical fake of tribunal, magistrate or judge, they will be more "favourable" to his demands.

Having gained his trust, on another day asked him about an [article on Simon Mercieca's blog](#) mentioning that

Psychiatrist Joseph Spiteri was sacked from the role of Psychiatrist of the prison because inmates ended paying him big money to get them boarded out. The following is the transcript of the conversation translated to English:

Me: *Is it true what that Simon Mercieca has written that (Psychiatrist Joseph) Spiteri was sacked from the role of Psychiatrist of the prison because inmates ended paying him big money to get them boarded out?*

Patient: *Yes and they still do, Spiteri is some head of here (namely of Mount Carmel Hospital).*

Me: *No Spiteri is the vice Chairman. Above him is Anton Grech as Chairman. And you know how much they used to pay him?*

Patient: *Some €5,000.*

Possibly this patient has given a sum of money for Psychiatrist Joseph Spiteri who together with some other 2 Psychiatrists submitted the usual fake court report to the Court (*perizja*) to have him declared mental, with this patient in the meantime even used to have some court

sittings where he mentioned "kien hemm Spiteri (jixhed) / there was Spiteri (testifying)". The next step would probably be for this patient to pay Spiteri more big money to have him boarded out and enjoy liberty living as a prince a life with money from social benefits to spend, enjoy and feast on, at taxpayer's expense.

The following is the transcript of the conversation as originally said in Maltese:

Jien: *Veru dak li kiteb Simon Mercieca fuq il-blog tieghu li (I-Psikjatra Joseph) Spiteri kienu nehhewh minn Psikjatra tal-habs ghax il-habsin kienu qed ituh somma tajba biex jghaddihom board?*

Pazjent: *Iwa u ghadhom. Spiteri hu xi I-Kap t'hawn.*

Jien: *Le Spiteri hu I-Vici Chairman. Fuqu hemm Anton Grech Chairman. U taf kemm kienu jhallsuh?*

Pazjent: *Xi €5,000.*
